PROFESSIONAL SUMMARY

Healthcare operations leader with 15+ years managing large-scale clinical operations and programs. Applies data analysis, Power BI reporting, and process improvement to reduce costs, improve efficiency, and support operational decisions.

TECHNICAL SKILLS

Tools: Power BI, Tableau, Excel, SAS Visual Analytics, Python, R, SQL, SharePoint
Analytics: Dashboard development, data cleaning, statistical analysis, regression, classification, clustering

EXPERIENCE

DAVID GRANT MEDICAL CENTER — Travis Air Force Base, CA
Healthcare Operations Management – Diagnostic Imaging — 2020–2023; *2024–Present*

- Oversee nine departments and 120 personnel, including a training program graduating 20 imaging professionals annually for medical centers worldwide.
- Replaced manual reporting with Power BI dashboards integrating multiple data sources, improving operational visibility for senior leadership.
- Managed $44M in capital and operating budgets, delivering $1.1M in savings through vendor negotiations, process improvement, and workforce optimization.
- Analyzed operational data to identify workflow bottlenecks, reducing operational waste costs by $750K and improving patient flow.

INCIRLIK AIR BASE — Adana, Türkiye
Consultant, Strategy, Plans and Operations — *2023–2024*

- Led an 80-person process improvement initiative that removed workflow bottlenecks and reduced policy publication turnaround time by 50%, from eight months to four.
- Coordinated stakeholders across 23 organizations to centralize policy documentation in SharePoint, supporting document management and access for 4,000 personnel.

SHIFT INNOVATION PROGRAM — Remote
Defense Venture Fellow — *2023*

- Evaluated blockchain applications during a competitive 12-week fellowship with an AI company, producing research, a presentation, and recommendations for new products and process improvements.

MEDICAL EDUCATION & TRAINING CAMPUS — San Antonio, TX
Director, Diagnostic Imaging Education Program — *2016–2020*

- Directed a program graduating 300 students annually, supporting 66 instructors and coordinating clinical placements across 11 geographically separated clinics.
- Secured $20M to replace legacy training equipment, reducing equipment failures and increasing student throughput.
- Analyzed application and performance data to streamline processing and increase certifications earned by 30%.

SELECTED ANALYTICS PROJECTS

Retail Sales Analysis | Python, pandas

- Validated joins and analyzed 421,570 department-week sales records across 45 stores to compare nonholiday store-week performance.

Financial Sentiment Classification | Python, scikit-learn, BERT

- Compared Naive Bayes, logistic regression, and BERT models on financial-news sentiment, documenting test performance and evaluation limitations.
